Open Records Policy

Carl Albert State College

Carl Albert State College (CASC) complies with The Oklahoma Open Meetings/Open Records Act (The Act) and refers to its text as provided by the Oklahoma Attorney General to determine what records are public. Carl Albert State College will consider public any information declared public by The Act and will hold confidential any information that is of private interest to individuals, or other information restricted by state or federal statutes.

Carl Albert State College welcomes the public’s right to know and be informed about operations of the college. The college is committed to protecting that basic right and upholding the state’s Open Records Act.

In promoting openness in its operations, CASC also has a legal responsibility to deny public access to certain records. Records that are confidential and sealed to public accessibility include proprietary information, information which is privileged and non-discoverable, and information that is of private interest to individuals, or other information restricted by state or federal statutes. Records in restricted categories include, but are not limited to the following:

- Teacher lesson plans, tests, and other teaching material
- Individual student records
- Personal communications about individual students
- Material gathered in anticipation or preparation for a trial or adversarial administrative proceeding
- Records protected under law, such as attorney-client and physician-patient
- Records of meetings that occurred during lawfully closed meetings as authorized under the Oklahoma Open Meeting Act
- Personnel records of individuals relating to internal personnel management considerations and including examination and selection material for employment, hiring, appointment, promotion, performance evaluations, discipline, resignation or retirement
- Personnel records that would constitute an invasion of personal privacy. This category includes employee evaluations, payroll deductions, and employment applications submitted by persons not hired
- Contents of sealed bids prior to date established for public opening
- Computer software and programs
- Donor records
- Records controlled by confidentiality agreements
- Proprietary records, such as patents, copyrights, trade secrets, and competitive athletic program information and data.
