*Program Requirements: 62-64 cr-hrs, 2.00 GPA*

<sup>1</sup>Math 1513 is recommended.

Major course selections should be made in consultation with an academic advisor and with an understanding of what college the student will transfer, and the state’s requirements to earn the baccalaureate education degree and teaching certification.

**How to Use this “Semester by Semester Degree Plan”:** Courses in this semester by semester breakdown are listed with several thoughts in mind. Prerequisites are listed first. Science, math, and major coursework are listed in order the course should be taken and in what term the course should be taken. Students should enroll into ORI 1111 and ENGL 1113, and any development courses in the first term. Courses listed in parenthesis are selections from which a student may choose. Enrollment into developmental courses will add to the total credit hour count, and may alter math and science enrollment rotations. -- While this is a guide to help the student with pre-enrollment, a study of the Course Schedule and a visit with an academic advisor is a must.

**Estimated Program Cost:** Students can complete this degree in four semesters (15-16 per semester).

The estimated cost of this program is approximated at: *62 credit-hours x \$127.25 per credit hour = \$ 7,889.50* (Please know that this cost does not include textbooks, supplies, developmental coursework, and other expenses, and is designed as an ESTIMATE only).

Actual program cost is based on Fall 2018 in-state tuition amounts and the final costs will vary from this estimate.
